1
00:00:00,000 --> 00:00:03,378
Minnesota plays a vital
role in improving the lives of Minnesotans

2
00:00:03,420 --> 00:00:06,423
through innovative approaches
to healthcare.

3
00:00:06,798 --> 00:00:10,927
We are helping children grow up healthy
by diagnosing autism sooner

4
00:00:11,344 --> 00:00:14,305
and supporting parents of autistic
children.

5
00:00:14,973 --> 00:00:17,350
We are using math and engineering

6
00:00:17,350 --> 00:00:20,353
to improve cancer treatment success rates.

7
00:00:20,562 --> 00:00:23,898
Our center for Spirituality
and Healing continues

8
00:00:23,898 --> 00:00:28,153
to be a fountain of emotional enrichment
in Minnesota and beyond.

9
00:00:28,862 --> 00:00:31,156
And we're making health
care more accessible

10

00:00:31,156 --> 00:00:34,159
in rural Minnesota
by training future physicians.

11
00:00:34,492 --> 00:00:37,495
Meet some of the people and discoveries
that make the university

12
00:00:37,954 --> 00:00:39,456
Minnesota's health care leader.
